

The Equine Digital Floor scale measures an above average capacity of 3,000 pounds. Although mainly used for weighing horses, this scale can be used for other heavy animals such as cattle, pigs, etc. The low profile scale provides an abundant amount of room so that the horse will feel comfortable enough to walk on and stand still while being weighed.

### Features:

- Accuracy– 0.3% of full load
- Capacity– 3,000 lb x 1 lb (1,500 kg x 0.5 kg)
- Hold Function– Ideal for single user weighing
- Plywood Top Option– Easy on animal hooves (not included)
- Versatile– Multitude of weighing jobs:
  - equestrian weighing
  - shipping
  - receiving bulk containers
- Battery– Remote location operation
- Detachable ABS Plastic Indicator– Convenient battery charging
- Auto Off– For saving power during down time
- Durable– Designed for rigorous applications

### Specifications:

- Capacity & Resolution: 3,000 lbs x 0.1 lb
- Platform Size:
  - 78.75" L x 39.37" W x 3.93" H
  - 2000 mm L x 1000 mm W x 100 mm H
- Platform Construction:
  - Powder coated paint
  - mild steel with safety tread plate
- Overload Protection: 150%
- End Loading Capacity: 100%
- Indicator Enclosure: ABS robust plastic
- Display: LED visible 0.8", six digit
- Power:
  - 6 VDC
  - internal lead-acid rechargeable
  - UL approved
  - CE approved
  - C-Tick approved power adapter
- Battery Life: 20 hours (approximate)
- Operating Temperature: 14°F to 104° F (-10° C to 40° C)
- Internal Resolution: 520,000 divisions
- Display Rate: up to 8 times per second
